

AMERICAN FOUNDRY SOCIETY

Northeast Indiana Chapter

September Technical Meeting

MONDAY, SEPTEMBER 15, 2008

OFFICERS:

- Chairman** – CHUCK LEONARD
DMI - Bristol
- 1st Vice Chairman** – BOYD WEAR
Dalton Corporation - Warsaw
- 2nd Vice Chairman** – TIM RYMAN
Dalton Corporation - Kendallville
- Secretary** – CRAIG HAMMITT
ABP Induction
- Treasurer** – BILL GARTLAND
Atlas Foundry Company
- Past Chairman** – MARK C. HOFFMAN
Ashland Casting Solutions

DIRECTORS:

- Term Ending 2009**
- MIKE ROSELLE
Core Tech Inc.
- LANCE AGNESS
The Ford Meter Box Company
- SCOTT BRATCHER
Bahr Brothers Manufacturing
- Term Ending 2010**
- JEREMY KAISER
Dalton Corporation - Kendallville
- STEVE DAMSCHRODER
Contech - Pierceton
- TBD
- TBD
- Term Ending 2011**
- MICHAEL SCHALL
Dalton Corporation - Warsaw
- TIM HALL
Foseco Metallurgical Inc.
- BOB CORN
The Ford Meter Box Company

COMMITTEES:

- Auditing**
- DAVID SCHMIDT – Chairman
- BILL SALE
- BILL GARTLAND
- Budget**
- BILL GARTLAND
- Education**
- LANCE AGNESS – Chairman
- Environmental/Government Liaison**
- MICHAEL SCHALL
- Membership**
- STEVE DAMSCHRODER – Chairman
- Program**
- BOYD WEAR – Chairman
- TIM RYMAN
- Publicity**
- MIKE ROSELLE – Chairman
- BOB CORN
- Special Events**
- JEREMY KAISER – Chairman
- MICHAEL SCHALL
- Nominations**
- MYRON SITES – Chairman
- BRIAN DIEHL BILL SALE
- JULIE McCORMICK MARK HOFFMAN

**LOCATION: THE EAGLE’S NEST EVENT CENTER
EAGLE GLEN GOLF COURSE
U.S. 30 AND STATE ROAD 205
COLUMBIA CITY, INDIANA**

**GUEST SPEAKER: TIMOTHY A. DORN
APPLIED PROCESS COMPANIES
AUSTEMPERING TECHNOLOGY**

**TIME: MEET & GREET.....5:30 to 6:00
DINNER.....6:00 to 6:45
PROGRAM.....6:45 to 8:00**

**COST: \$20.00 Buffet
\$15.00 Student Cost**

**RESERVATIONS: PLEASE MAKE YOUR RESERVATIONS
BY CALLING OR E-MAILING BEFORE
12:00 NOON ON THURSDAY,
September 11, 2008.**

IF YOU MAKE A RESERVATION, PLEASE PLAN ON ATTENDING. ALL RESERVATIONS WILL BE INVOICED WHETHER YOU ATTEND OR NOT.

AN ADDITIONAL COST OF \$2.00 WILL BE CHARGED AT THE DOOR FOR PARTICIPANTS WHO DO NOT CALL AHEAD.

**CONTACT: rsvp@afsnein.org
BILL GARTLAND

AMERICAN FOUNDRY SOCIETY

Northeast Indiana Chapter

Serving the Metalcasting Industry

Chairman's Chat

It is up to us...

That's right! As we start off another successful year I have a question for you. What are you expecting from our Chapter? Are you looking for something great to happen, or are you expecting to be disappointed? As we begin this year it is up to us! I expect another great year! The American Foundry Society exists to provide and promote knowledge and services that strengthen the metalcasting industry for the ultimate benefit of its customers and society. Our Chapter is what WE make it.

We have a full schedule of events ahead of us, with another successful Golf Outing just completed. Our calendar of Technical Speakers and Sponsoring Companies is filling in fast. Ladies Night is on Valentines Day this year; please be sure to mark your calendar (February 14th). Special thanks to Jeremy Kaiser and Michael Schall for their hard work putting together another great Golf Outing this year; and to Boyd Wear and Tim Ryman for the tremendous efforts in planning our Monthly Program. Everyone's engagement and participation in our events directly allows for the Chapters continued success in providing scholarships to the next leaders of our industry.

Your attendance and support is important and vital to the success of the Chapter. Please make sure to email or call your RSVP to Bill Gartland at rsvp@afsnein.org, or via our website www.afsnein.org or at (765) 662-2525, ext 103. Thank you to all who come out and support the Chapter.

Chuck Leonard

Technical *Speaker*

Timothy A. Dorn
Applied Process Companies
Oshkosh, Wisconsin
Austempering Technology

Austempering is an isothermal heat treatment that, when applied to ferrous materials, produces a structure that is stronger and tougher than comparable structures produced with conventional heat treatments. Austempering may provide the following benefits to components: less distortion, higher strength, higher toughness, less noise, better wear resistance, lighter components, lower overall component cost.

Timothy Dorn graduated with a Bachelors Degree from the University of Wisconsin-Milwaukee in Materials Engineering in 1987. He worked in the Foundry Industry in Quality, Metallurgical, and Technical capacities for 15 years, at Intermet Foundries – Hibbing, MN; Badger Foundry – Winona, MN; and Neenah Foundry Co – Neenah, WI. Tim has authored/co-authored papers on various Technical Casting industry subjects. Tim teaches a class for the Ductile Iron Society every year (since 2000) on Austempering Technology as well as Quality Control Procedures in Foundry Production. He joined the Applied Process team in October, 2003 as the Plant Manager of AP Westshore, Oshkosh, Wisconsin.

Tim is now the Vice President of Sales and Marketing for the Applied Process Companies.

Company of the Month

Cold Jet, Loveland, Ohio

Cold Jet, the world leader in dry ice blasting technology, has developed dry ice blast cleaning systems to meet every unique cleaning application need. Dry ice blasting is similar to sand blasting, plastic bead blasting, or soda blasting where a medium is accelerated in a pressurized air stream to impact a surface to be cleaned or prepared. But that's where the similarity ends. Instead of using hard abrasive media to grind on a surface (and damage it), dry ice blasting uses soft dry ice, accelerated at supersonic speeds, and creates mini-explosions on the surface to lift the undesirable item off the underlying substrate. Cold Jet dry ice blasting uses compressed air to accelerate frozen carbon dioxide (CO₂) "dry ice" pellets to a high velocity. A compressed air supply of 80 PSI/50 scfm can be used in this process. Dry ice pellets can be made on-site or supplied. Pellets are made from food grade carbon dioxide that has been specifically approved by the FDA, the EPA and the USDA.

Through its continuous effort to perfect the technology, Cold Jet is able to offer the market's most dependable dry ice blasting systems at a lower cost of ownership than any other system of its kind. Cold Jet provides solutions for any budget with the widest selection of blasting machines, unique nozzle designs and dry ice production equipment available worldwide. All of this, in addition to the industry's most knowledgeable and experienced customer service team, combines to form the ideal dry ice blasting system for any cleaning application.

Northeast Indiana Chapter of AFS welcomes Cold Jet as our September 2008 "Company of the Month."
